The ALL Brown Baggers program is intended to fill our need for discussion of some of the important, and perhaps not-so-important developments in our world. This is a truly informal time, when we can meet some new people who are lively and interesting, and who love learning every day. And we actually do eat lunch during the presentation.

The baggers meet every Thursday at noon in the beautiful Sheldon L. Fountain Learning Commons located right in the middle of the Acadia University campus.

Please mark your calendar: Every Thursday at noon. We will advise you by email of upcoming programs.
